PTO's

The first step in any Wet Kit system is the PTO. At MTEI we will research your needs to help get the best fit for your application. We deal direct with the manufactures to get you the best price on a quality product. We offer light, medium and heavy duty product lines.

Our PTO assemblies are available in a variety of ratios and gear sizes to match any application.

We can also custom build a pto for your specific needs to fit almost any vehicle new or old.
